CALDERON CARLISLE

Spain's United States Councillor
Interviewed in London.

CUBAN QUESTION DISCUSSED.

Spain Expects to Offset American Claims For Damages to Property and Citizens by Claims For Compensation on Account of Filibusterers—Negotiating a Reciprocity Treaty.

LONDON, Aug. 20.—Calderon Carlisle of Washington, councillor of the Spanish legation in the United States, arrived here yesterday from Spain. In an interview he says he went to Spain to pay a visit to relatives, but while there he had an audience with the queen regent and he discussed with the late Senor Canovas del Castillo, the late premier, and other officials of the Spanish government the various aspects of the Cuban question, explaining to Senor Canovas the details of some of the principal filibustering expeditions from the United States to Cuba and giving his views as to the legal aspects of the filibustering claims which he had investigated since the war broke out in Cuba. Spain, he said, intended to press strongly his claims to compensation for filibustering, and these claims would overbalance the American claims for damages to the property of citizens of the United States in the island.

"My last interview with the late Senor Canovas," said Mr. Carlisle, "was during the week before he was assassinated, and at the hotel which was the scene of the tragedy. He requested me to call. Senor Canovas appeared to be in excellent health and spirits, though, of course, he was no longer a young man. He told me that he was satisfied that the progress of the war in Cuba this summer had been all that could be expected in the wet season and that he believed conditions would be much better in the autumn. He spoke reelingly of the suffering in Cuba, which he considered and described as unavoidably incidental to a state of war, and he expressed the warmest hope that the necessity for suffering would soon cease.

"The condition of public sentiment in the United States as a matter as to which he made particular inquiry. I assured him that the country was not so partial to the insurgent movement as might be inferred from some of the newspapers and from the reports of congressional debates." Mr. Carlisle believes the effect of the assassination of Canovas will be to unite more closely the various sections of the conservative party in Spain.

He said: "I can speak not only for the court circles but also for the people of three provinces where the Carlisle is reputed to be strongest, and I can say that I saw no signs of preparations for a Carlisle rising nor anything to corroborate reports circulated in the United States to the effect that the Spanish people are so dissatisfied with the government as to be easily incited to overthrow it."

RECIPROCITY.

Negotiations to Be Opened Between France and the United States.

WASHINGTON, Aug. 20.—Secretary Sherman has acknowledged the recent overture of the French government, through Ambassador Patenotre, for negotiating a reciprocity treaty between the United States and France under the reciprocity clause of the new tariff law. This will be the first effort toward practical application of the reciprocity clause of the new tariff law. Careful investigation is being made of the status of trade between France and the United States as a preliminary to negotiation. The data prepared in this connection shows imports from France for the year 1895-6 amounted to \$67,000,000. It is estimated that the duties under the new tariff law on imports of this amount would be \$32,400,000, or 48.35 percent of the value of the goods. If, however, the reciprocity clause is granted to France, the duties on French imports is estimated at \$31,500,000, or 47 percent of the value of the goods. Thus the reciprocity clause would reduce French duties less than \$1,000,000 on a year's imports.

CONSULTING WITH THE QUEEN.

Cabinet Place Their Resignations in the Hands of Azezagara.

SAN SEBASTIAN, Aug. 20.—General Azezagara, the temporary president of the Spanish cabinet, arrived here yesterday and had an audience with the queen regent last night which is being continued today.

At a cabinet council immediately prior to his leaving Madrid, the ministers placed their portfolios at his disposal in case the queen regent should desire the resignation of the cabinet or any member of it, or any modification in the construction of the cabinet.

The Conservatives think that the present crisis will result in the return of the Liberals to power in Spain.

MOUNT VERNON, Ill., Aug. 20.—What was probably the shortest sentence ever imposed upon a convict in Illinois was pronounced by Judge Youngblood of the county court. Miss Annie Bradford was arraigned before the court charged with grand larceny, but the state's attorney changed the charge to petit larceny, whereupon the defendant pleaded guilty, and Judge Youngblood assessed a fine of \$1 against her and also sentenced her to one minute in the Jefferson county jail.

His intestines were punctured six times by the bullet.

OPERATORS ORGANIZE.

Their Purpose Is to Crush the Strike. What Remedy Says.

PITTSBURGH, Aug. 20.—The coal operators held another conference late yesterday. The meeting was well attended and a permanent organization was effected. The fact that the coal operators of the Pittsburgh district have not had an organization for more than a year was talked over and it was decided to form an organization for the special purpose of breaking the strike. The aggregate output represented at the meeting was 5,000,000 tons a year.

An agreement was drawn up which provides that the signers shall pay assessments based on the producing capacity of their mines to a fund to be raised for the purpose of paying the expense of the strike. The telephone was kept busy, and many Pittsburgh operators sent word that they would sign, even though not present at the meeting. A committee of seven was appointed to carry on the campaign.

Colonel W. P. Read, after the meeting, said: "We propose to operate our mines, and if our men will not work, then others will take their places. We will make the telephone busy, and we will take the step we intend to, which, just as sure as the sun rises, will be the means of operating the mines at our pleasure."

The loss will reach nearly \$100,000, and not a dollar of insurance was carried. The fire is supposed to have been started by religious fanatics. The town has had four fires and each is now thought to have originated from the same source.

BABY'S COMING.

Nature intended that every woman should look forward to the coming of her baby with joy and hope, unclouded by anxiety. Alas, how often this is not the case. The usual thing among uncivilized people. Even in our own country it occasionally happens with women in robust health and good condition. It ought to be the rule instead of the exception, and it is a fact that a very large proportion of the usual pain and suffering may be avoided by looking after the mother's general health, and specially strengthening the particular organs concerned in parturition.

Many mothers have been brought through the trying time almost painlessly by the aid of Dr. Pierce's Favorite Prescription. It prepares the system for delivery by invigorating the organic strength and elasticity which the mother specially needs; shortens the time of labor and of confinement; promotes the secretion of abundant nourishment for the child and fortifies the entire constitution against the after period of depression and weakness. It's use should begin in the early months of gestation—the earlier the better.

Mrs. Fred Henry, of Glenville, Schenectady Co., N. Y., says: "I read about Dr. Pierce's Favorite Prescription being so good for a woman with child, so I got two bottles last September, and December 13th, I had a twelve-pound baby girl. When I was confined I was not sick in any way. I did not suffer any pain, and when the child was born I walked into mother room and went to bed. I never had an after-pain or any other pain. This is the eighth child and the largest of them all. I suffered everything that flesh and blood women are liable to. I always had a doctor and then he could not help me very much, but this time my mother and my husband were with me. My baby was only seven days old when I got up and dressed and left my room and stayed up all day."

CAMPED FOR WINTER

Goldseekers Landed at Skaguay Bay Will Lay by Till Spring.

HUNDREDS HAVE GIVEN UP HOPE

It Now Costs \$30 Per Hundred to Get Freight Over the Chilkoot—Pack Trains Engaged For Six Weeks Ahead—Old Miner of Seattle Writes of the Conditions at Skaguay.

SEATTLE, Wash., Aug. 20.—Not more than 200 of the 4,000 Klondike gold hunters now encamped at Skaguay bay will get through to the Klondike this winter.

Advices received here per steamship Queen, leaving Skaguay Aug. 13, state that the majority of the miners now on the beach at the foot of the alleged pass over the mountains have determined to winter there, having given up hopes of getting to the lakes before winter sets in. Two alternatives face the Klondiker on being dumped off the steamer at Dyea, either he must climb the Chilkoot pass, 4,000 feet high, then cross two snow-covered ranges, or else he must take the raw trail that has been constructed over White pass and which is now almost impassable with mud and obstructions.

Indian packers are employed at the Chilkoot at \$30 per hundred for packing supplies to the lake. An ordinary outfit would thus entail an expenditure of \$300 for packing to get to fresh water. The other alternative is to employ a pack train over the White pass. As yet, however, it has been found impossible to get an outfit or half a ton over the pass by this route short of a week or 10 days. Hundreds of those at Skaguay have given up hope of ever reaching the diggings and are selling their supplies at one-tenth of their cost price. A number have gone to work at the Treadwell mine, whose employees deserted at the beginning of the Klondike excitement.

One party has gone through to Lake Linderman and is now headed to the Yukon. They went over the Chilkoot pass. They paid 30 Indians \$720 for packing their outfit of 2,400 pounds to the lake and started down the Yukon a week after starting up the Chilkoot.

Old Miner's Letter.

A letter received here from an old miner at Skaguay Bay, formerly of this city, says: "You ought to see the crowd here. There are all kinds, from 16 to 75. Of the 1,500 people here none have gone further than four miles up the trail. This gives you an idea of the progress that is being made to the Klondike. Not one in five now here will get through. Horses can carry 150 pounds and make the trip over the pass to Lake Linderman in five days. So you can understand how long it will take a man to get over a ton of grub. There are 1,000 tons of freight here now, and only two pack trains with 38 horses. In five or six weeks the river will freeze, and then where will the grub be? It will take us three weeks, with two horses, to get in a little over 1,500 pounds. All pack trains are contracted for six weeks ahead. "Many will stay here until spring, or if they can raise the money will go back to the sound. Tell the people not to bring any boats. We had boats made at Seattle, and not one of them will go over the pass. There are 300 boats on the beach here useless. Every one is cutting down on supplies—one-half on flour, milk, butter and coffee. You can buy an outfit here today one-fourth cheaper than at home. We have two horses that cost us \$40; we can get \$300 for them any day. A team earns \$75 per day here. They get \$20 per ton for three and one-half miles, and make four trips every other day. Men get \$7 per day for packing and \$5 per day for working in 'the city.' If a man wants to make a fortune let him start a hotel at this place. The town is four weeks old, yet there are 3,000 people here and more coming every day."

Klondike Mails.

WASHINGTON, Aug. 20.—Canada's proposition for carrying the mails one round trip a month between Dawson City and Dyea have been formally accepted by Acting Postmaster General Shallenberger and the Canadian government notified of the action. In this communication this government is stated to be in readiness to assume its share of the responsibility and Canada is urged to put the service into operation at the earliest possible moment. Dyea, which is 100 miles above Juneau on the Lynn canal, and Dawson City, will be declared international postal exchange offices. The British mails will be carried by the United States from Victoria, B. C., to Dyea. The service will bring about the creation of a postoffice at Dawson City and also at Fort Cundy, Forty Mile and probably at other points, although those mentioned are beyond Dawson City.

U. V. U.

Bitter Fight Over the Admission of Delegates.

SPRINGFIELD, O., Aug. 20.—The sessions of the national encampment, U. V. U., was taken up yesterday by a bitter fight over the admission of delegates. The committee on credentials was able to make only a partial report. There are contesting delegates from the departments of Washington, Kentucky and Pennsylvania. Large delegations are here from two suspended commands, Hancock No. 1 and John A. Logan, No. 2 of Washington, D. C. The question of their admission also enters into the fight as does the candidacies for commander-in-chief.

EXTENDS ITS LINES.

Postal Telegraph Secures Control of Two Systems in Mexico.

NEW YORK, Aug. 20.—Under separate agreements entered into with the great systems of the republic of Mexico, respectively, the Mexican National Railway company and the Mexican Central Railway company, the telegraph lines of these companies have passed under the control of the Postal Telegraph company. Heretofore telegraphing into the Mexican capital has either been by cable via Galveston and Vera Cruz, or by the American land lines to the Mexican border and thence by railway companies' lines from Laredo or El Paso to the City of Mexico. The contracts entered into gives the Postal company a continuous system from the United States to all principal cities in the neighboring republic. As a consequence of this extension messages from American cities have been reduced 40 per cent, making the message rate from New York to the City of Mexico \$1.85 for 10 words, and the cable rate from the City of Mexico to London has been reduced from 60 cents a word to 39 cents a word.

Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

DR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive examination and investigations of Dr. Miles have proven, result from treatment of the nervous system. My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she lay at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own household work. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them. Dr. Miles' Remedies are sold by all druggists under a positive guarantee. First bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. OWNED OUT OF OFFICE.

Ex-Treasurer Robertson Handsomely Re-membered by His Official Associates.

Tuesday George A. Robertson retired as treasurer of Jackson county, being succeeded by Alex. Greger, who was appointed to fill the vacancy in the office until January 1. His regular term for which he was elected will begin January 1, in accordance with the new law.

Just as Mr. Robertson was turning the office over to his successor his official associates about the court house and a number of friends marched into the treasurer's office prepared to prove their esteem for the retiring official, who had served the people for a period of four years. Judge Ralph Applewhite, of Seymour, was their spokesman. In a very neat and appropriate speech he paid tribute to Mr. Robertson as an official and then in behalf of the donors he presented to him a beautiful gold-headed cane. Mr. Robertson accepted the cane responding to Judge Applewhite in words that showed he fully appreciated the gift and the many favors shown him by his friends while in office.

IN FRIENDSHIP, LOVE AND TRUTH.

I. O. O. F. District Meeting at Washington One of the Largest Ever Held in South ern Indiana.—Seymour Degree Staff Conspicuous Above Them All.

The district meeting of the Old Fellows held at Washington, Indiana, was one of the grandest affairs ever held in that city. At an early hour the streets were thronged with visitors representing nearly every lodge in southwestern Indiana. The city was gayly decorated, the colors of the order being profusely displayed and the band of fellowship was open to all. Business was entirely suspended during the afternoon.

The Initiatory Degree by Liverpool Lodge of Washington and the First Degree by Petersburg Lodge was presented in the morning in a most interesting way.

At 1:30 p. m. a grand parade was made, nearly one thousand Odd Fellows being in the line march. After the parade a public address was made by Hon. G. L. Reinhard, Grand Master of Indiana. The doors at the spacious and beautiful hall of Liverpool Lodge were then closed upon all but members of the order and Seymour Degree Staff conferred the Second and Third degrees. Their exemplification of this work was sublime; and that it was most highly appreciated was well attested by the flattering praise from all present and the congratulations of the grand officers as being second to no degree staff in the state.

At night the Rebekah Degree was conferred upon six candidates by Eureka Lodge and Mrs. Sadie E. Carter, president of the Rebekah Assembly, made a very able address.

The event throughout was a most sumptuous one and Seymour Degree Staff may justly feel proud in being honored in participating in the ceremonies and receiving the meritorious compliments as well as the numerous courtesies from Washington brethren.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

John R. McLean's Great Newspaper.
Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; as a more successful publisher than a proprietor, Mr. John R. McLean. The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.
The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.
When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.
The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as of greater magnitude.

A Remarkable Cure of Chronic Diarrhoea.
In 1861, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, Henry Steinberger, Allentown, Pa. Sold by C. W. Milhous, the druggist.

A Bunch of Buffalo Berries.

In the show window at the Cox Pharmacy hangs a bunch of buffalo berries from the plains of North Dakota, brought here by a friend of John Himm. Buffalo berries are very similar to our sarvis berries although not so pleasant to the taste and they grow in great abundance in the northwest. It is from the buffalo berries that the Indians prepare a winter food they call "Pomac." It is made by taking a gourdful each of buffalo berries and grasshoppers and drying them over a slow fire. The mass is pressed into cakes and served with snow balls, and is said to be quite a toothsome delicacy to those who are not choice about their diet.

Indigestion is often taken for consumption. The word consumption means wasting away, and dyspeptics often waste away as badly as consumptives.

The reason people waste away is because either they don't get enough to eat, or they don't digest what they do eat.

If the latter is your trouble, take Shaker Digestive Cordial. This will help you to digest your food and stop your loss of flesh.

Shaker Digestive Cordial is made from herb, barks and the juices of fruit by the well-known Shakers at Mount Lebanon. It possesses great tonic and digestive powers.

Shaker Digestive Cordial has cured many supposed consumptives (who were really dyspeptics), by simply helping their stomachs to digest their food thus giving them nourishment and new strength.

BORDER BANDITS.

Shooting Down Ranchers Who Give Officers Information.

SILVER CITY, N. M., Aug. 20.—The Black Jack gang of border bandits made an addition to their record of crime in this section yesterday. They rode up to the ranch of "Shorty" Miller on Mule creek, about 60 miles west of here and calling him to the door, shot him, inflicting a wound which will likely prove fatal. A posse of cattlemen was at once organized to follow them and unexpectedly came upon the bandits on Dry creek about 25 miles distant from the Miller ranch. A fight ensued in which Edward Moss was killed and Elgin Holt is reported missing. The motive for the first crime is supposed to be revenge for information furnished to the officers which resulted in the fight near Clifton in which Tom Ketchum, a member of the gang was killed. An attack was made a few days ago on Sam Shaw by the same gang, but he escaped, although his horse was shot under him. His life had been threatened for the same cause. Owing to the distance from here and the wild character of the country complete details are not obtainable.

GHOSTS WORRY HIM.

Farmer Who Accidentally Killed His Wife Frightened From Home.

WEST UNION, O., Aug. 20.—Abraham Bentley, who accidentally shot and killed his wife the latter part of June, has been frightened away from the scene of the tragedy by the alleged presence of ghosts. For several weeks past the old gentleman has complained to his neighbors that strange sights and noises can be seen and heard about the premises. About a week ago Bentley became so thoroughly frightened that he boxed off a room in the corner of an old barn some distance from his home, moved some bedding and cooking utensils there, and no amount of persuasion can induce him to again visit the house.

IDENTIFIED IN ADVANCE.

Why She Was Convinced That the Dead Man Was Not Her Husband.

Notwithstanding she was not a dame of high degree, she was a woman of character, and there was a peculiar aggressiveness in the freckle on her nose which made the police officers on duty at the station house stop around lively when she called on a matter of business.

"I understand," she said to the sergeant, "that there's the body of a man waiting to be identified here."

"It is at the morgue, madam," responded the sergeant, but with more suavity than is common.

"Well, my husband hasn't been at home for three days, and I thought it might be him. Can you tell me what he looks like?"

"Yes; but you could get a good deal more satisfaction by going to the morgue yourself, ma'am."

"I suppose I could," she sighed as if she felt sure she would not identify the remains as those of her husband. "Was he killed?"

"Oh, no, ma'am," exclaimed the sergeant. "He died suddenly. The patrolman saw him fall on the street."

"Died sudden, did he?" she asked with interest.

"Yes, ma'am."

Her tone indicated that she thought the police were to blame in some way.

"Well," she said, "there's no use in my going to the morgue if that's the case. It ain't my husband. He never done anything sudden in his life. He's the slowest man on earth. Goodby," and she walked out of the station house as if she were sorry about something.—Washington Star.

CALDERON CARLISLE

Spain's United States Councillor
Interviewed in London.

CUBAN QUESTION DISCUSSED.

Spain Expects to Offset American Claims For Damages to Property and Citizens by Claims For Compensation on Account of Filibusters—Negotiating a Reciprocity Treaty.

LONDON, Aug. 20.—Calderon Carlisle of Washington, councillor of the Spanish legation in the United States, arrived here yesterday from Spain. In an interview he says he went to Spain to pay a visit to relatives, but while there he had an audience with the queen regent and he discussed with the late Senor Canovas del Castillo, the late premier, and other officials of the Spanish government the various aspects of the Cuban question, explaining to Senor Canovas the details of some of the principal filibustering expeditions from the United States to Cuba and giving his views as to the legal aspects of the filibustering claims which he had investigated since the war broke out in Cuba. Spain, he said, intended to press strongly her claims to compensation for filibustering, and these claims would overbalance the American claims for damages to the property of citizens of the United States in the island.

"My last interview with the late Senor Canovas," said Mr. Carlisle, "was during the week before he was assassinated, and at the hotel which was the scene of the tragedy. He requested me to call. "Senor Canovas appeared to be in excellent health and spirits, though, of course, he was no longer a young man. He told me that he was satisfied that the progress of the war in Cuba this summer had been all that could be expected in the wet season and that he believed conditions would be much better in the autumn. He spoke tellingly of the suffering in Cuba, which he considered and described as unendurable. He mentioned that he was expressing the warmest hope that the necessity for suffering would soon cease.

"The condition of public sentiment in the United States was a matter as to which he made particular inquiry. I assured him that the country was not so partial to the insurgent movement as might be inferred from some of the reports of newspapers and from the reports of congressional debates." Mr. Carlisle believes the effect of the assassination of Canovas will be to unite more closely the various sections of the conservative party in Spain.

He said: "I can speak not only for the court circles but also for the people of three provinces where the Carlists are reputed to be strongest, and I can say that I saw no signs of preparations for a Carlist rising nor anything to corroborate reports circulated in the United States to the effect that the Spanish people are so dissatisfied with the government as to be easily incited to overthrow it."

NEGOTIATIONS TO BE OPENED BETWEEN FRANCE AND THE UNITED STATES.

WASHINGTON, Aug. 20.—Secretary Sherman has acknowledged the recent overture of the French government, through Ambassador Trenet, for negotiating a reciprocity treaty between the United States and France under the reciprocity clause of the new tariff law. This will be the first effort toward practical application of the reciprocity clause of the new tariff law. Careful investigation is being made of the status of trade between France and the United States as a preliminary to negotiation.

The data prepared in this connection shows imports from France for the year 1896 amounted to \$87,000,000. It is estimated that the duties under the new tariff law on imports of this amount would be \$32,400,000, or 43.35 per cent of the value of the goods. If, however, the reciprocity clause is granted to France, the duties on French imports are estimated at \$31,500,000, or 47 per cent of the value of the goods. Thus the reciprocity clause would reduce French duties less than \$1,000,000 on a year's imports.

Their Purpose Is to Crush the Strike.

PITTSBURGH, Aug. 20.—The coal operators held another conference late yesterday. The meeting was well attended and a permanent organization was effected. The fact that the coal operators of the Pittsburgh district have not had an organization for more than a year was talked over and it was decided to form an organization for the special purpose of breaking the strike. The aggregate amount represented at the meeting was 5,000,000 tons a year.

An agreement was drawn up which provides that the signers shall pay assessments based on the producing capacity of their mines to a fund to be raised for the purpose of paying the expense of the strike. The telephone was kept busy, and many Pittsburgh operators sent word that they would sign, even though not present at the meeting. A committee of seven was appointed to carry on the campaign.

CAMPED FOR WINTER

Goldseekers Landed at Skaguay
Bay Will Lay by Till Spring.

HUNDREDS HAVE GIVEN UP HOPE

It Now Costs \$30 Per Hundred to Get Freight Over the Chilkoot—Pack Trains Engaged For Six Weeks Ahead—Old Miner of Seattle Writes of the Conditions at Skaguay.

SEATTLE, Wash., Aug. 20.—Not more than 200 of the 4,000 Klondike gold hunters now encamped at Skaguay bay will get through to the Klondike this winter.

Advices received here per steamship Queen, leaving Skaguay Aug. 13, state that the majority of the miners now on the beach at the foot of the alleged pass over the mountains have determined to winter there, having given up hopes of getting to the lakes before winter sets in. Two alternatives face the Klondiker on being dumped off the steamer at Dyea, either he must climb the Chilkoot pass, 4,000 feet high, then cross two snow-covered ranges, or else he must take the raw trail that has been constructed over White pass and which is now almost impassable with mud and obstructions.

Indian packers are employed at the Chilkoot at \$30 per hundred for packing supplies to the lake. An ordinary outfit would thus entail an expenditure of \$300 for packing to get to fresh water. The other alternative is to employ a pack train over the White pass. As yet, however, it has been found impossible to get an outfit or half a ton over the pass by this route short of a week or 10 days. Hundreds of those at Skaguay have given up hope of ever reaching the diggings and are selling their supplies at one-tenth of their cost price. A number have gone to work at the Treadwell mine, whose employees deserted at the beginning of the Klondike excitement.

One party has gone through to Lake Linderman and is now headed to the Yukon. They went over the Chilkoot pass. They paid 30 Indians \$720 for packing their outfit of 2,400 pounds to the lake and started down the Yukon a week after starting up the Chilkoot.

Old Miner's Letter.

A letter received here from an old miner at Skaguay Bay, formerly of this city, says: "You ought to see the crowd here. There are all kinds, from 16 to 75. Of the 1,500 people here none have gone further than four miles up the trail. This gives you an idea of the progress that is being made to the Klondike. Not one in five now here will get through. Horses can carry 150 pounds and make the trip over the pass to Lake Linderman in five days. So you can understand how long it will take a man to get over a ton of grub. There are 1,000 tons of freight here now, and only two pack trains with 38 horses. In five or six weeks the river will freeze, and then where will the gang be? It will take us three weeks, with two horses, to get in a little over 1,500 pounds. All pack trains are contracted for six weeks ahead.

"Many will stay here until spring, or if they can raise the money will go back to the sound. Tell the people not to bring any boats. We had boats made at Seattle, and not one of them will go over the pass. There are 300 boats on the beach here useless. Every one is cutting down on supplies—one-half on flour, milk, butter and coffee. You can buy an outfit here today one-fourth cheaper than at home. We have two horses that cost us \$40; we can get \$70 for them any day. A team earns \$30 per day here. They get \$20 per ton for three and one-half miles, and make four trips every other day. Men get \$7 per day for packing and \$5 per day for work in 'the city.' If a man wants to make a fortune let him start a hotel at this place. The town is four weeks old, yet there are 3,000 people here and more coming every day."

Klondike Mails.

WASHINGTON, Aug. 20.—Canada's proposition for carrying the mails one round trip a month between Dawson City and Dyea have been formally accepted by Acting Postmaster General Shallenberger and the Canadian government notified of the action. In this communication this government is stated to be in readiness to assume its share of the responsibility and Canada is urged to put the service into operation at the earliest possible moment. Dyea, which is 100 miles above Juneau on the Lynn canal, and Dawson City, will be declared international postal exchange offices. The British mails will be carried by the United States from Victoria, B. C., to Dyea. The service will bring about the creation of a postoffice at Dawson City and also at Fort Cundy, Forty Mile and probably at other points, although those mentioned are beyond Dawson City.

EXTENDS ITS LINES.

Postal Telegraph Secures Control of Two Systems in Mexico.

NEW YORK, Aug. 20.—Under separate agreements entered into with the great systems of the republic of Mexico, respectively, the Mexican National Railway company and the Mexican Central Railway company, the telegraph lines of these companies have passed under the control of the Postal Telegraph company. Heretofore telegraphing into the Mexican capital has either been by cable via Galveston and Vera Cruz, or by the American land lines to the Mexican border and thence by railway companies' lines from Laredo or El Paso to the City of Mexico. The contracts entered into gives the Postal company a continuous system from the United States to all principal cities in the neighboring republic. As a consequence of this extension messages from New York to the City of Mexico \$1.85 for 10 words, and the cable rate from the City of Mexico to London has been reduced from 60 cents a word to 39 cents a word.

IRREGULARITIES ALLEGED.

Peculiar Transactions of a Distillery Company Which Recently Assigned.

EMINENCE, Ky., Aug. 20.—Reported irregularities in the affairs of the Fible & Crabb Distilling company recently assigned, causes intense excitement here, it being stated that there is a shortage in free whisky of 100 barrels and an unknown shortage in bonded goods and duplication of warehouse receipts. Colonel Crabb, the head of the concern, is at Drennan Springs and cannot be reached by wire or otherwise. It is alleged the free whisky was pledged as collateral to Lagrange bank and 100 barrels of it was sold by written permission of the cashier of the bank. There are a number of alleged errors discovered in the books of the assignee. These are accounted for by the fact that the concern's bookkeeper recently went crazy. His errors were frequent and intricate.

Vanquished by Dr. Miles' Remedies.

DR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes, on May 18, 1905: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully that I at once dismissed the physicians. She now eats and sleeps well and does her own household work. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them. Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free or money refunded. Book on Heart and Nerves sent free to all applicants. DR. WHEAT STILL SOARING.

Will It Reach a Dollar Yet This Season?

Wheat was excited in all markets this morning at the opening and the first sales made were at an advance of 3 cents over closing prices on Thursday. The strength was imparted by continued buying of American grain by foreigners and also by the discouraging reports from the northwestern states, where spring wheat is raised, to the effect that harvesting in that section, now just begun, is disappointing. Chicago continued to rule firm during the morning session and remained steady at the afternoon quotation of 90¢ for the September option but by noon the bulls were again in control and the price at the closing of 'Change was 93 cents. From private advice we learn that the "curb" price has advanced to "and now stands at 94¢. At what will it open tomorrow morning? Who can say.

This is not the first time the wheat bulls have gained such complete control of the situation but it is hardly expected that they will dare to attempt to run such a "corner" as was engineered by "Old Hutch" in 1885. The culmination of that movement was in October of that year when on the 12th No. 1 wheat was sold at \$1.28 per bushel in Minneapolis, but the decline then set and never stopped until 78 cents was reached.

Highly Enjoyable.
The Odd Fellows came here this morning from Washington, where they had a highly enjoyable time last night. Their work of conferring the second and third degrees of the order was a masterly effort and was highly spoken of by the large number of visitors present.

Jessie Mae Hall.
The performance at the Opera House last night by Miss Jessie Mae Hall and her excellent company was highly appreciated by the large crowd present. The players all performed their parts well and were generously applauded. Mr. Chas. Lambuth, the pianist, is an artist of more than ordinary merit. Tonight the company will present "Jealousy." They should be greeted by a large audience again.

Badly Out.
While trimming brush last evening near the Pearl Laundry with a hand ax, Ralph Kennedy struck his right knee, cutting a deep and painful gash. He was immediately taken to the office of Dr. Gerrish, who dressed the wound.

CANED OUT OF OFFICE.

Ex-Treasurer Robertson Handsomely Remembered by His Official Associates.

Tuesday George A. Robertson retired as treasurer of Jackson county, being succeeded by Alex. Greger, who was appointed to fill the vacancy in the office until January 1. His regular term for which he was elected will begin January 1, in accordance with the new law. Just as Mr. Robertson was turning the office over to his successor his official associates about the court house and a number of friends marched into the treasurer's office prepared to prove their esteem for the retiring official, who had served the people for a period of four years. Judge Ralph Applewhite, of Seymour, was their spokesman. In a very neat and appropriate speech he paid tribute to Mr. Robertson as an official and then in behalf of the donors he presented to him a beautiful gold-headed cane. Mr. Robertson accepted the cane responding to Judge Applewhite in words that showed he fully appreciated the gift and the many favors shown him by his friends while in office.

IN FRIENDSHIP, LOVE AND TRUTH.

I. O. O. F. District Meeting at Washington One of the Largest Ever Held in South ern Indiana.—Seymour Degree Staff Conspicuous Above Them All.

The district meeting of the Old Fellows held at Washington, Indiana, was one of the grandest affairs ever held in that city. At an early hour the streets were thronged with visitors representing nearly every lodge in southwestern Indiana. The city was gayly decorated, the colors of the order being profusely displayed and the hand of fellowship was open to all. Business was entirely suspended during the afternoon.

The Initiatory Degree by Liverpool Lodge of Washington and the First Degree by Petersburg Lodge was presented in the morning in a most interesting way.

At 1:30 p. m. a grand parade was made, nearly one thousand Odd Fellows being in the line march. After the parade a public address was made by Hon. G. L. Reinhard, Grand Master of Indiana. The doors at the spacious and beautiful hall of Liverpool Lodge were then closed upon all but members of the order and Seymour Degree Staff conferred the Second and Third degrees. Their exemplification of this work was sublime; and that it was most highly appreciated was well attested by the flattering praise from all present and the congratulations of the grand officers as being second to no degree staff in the state.

At night the Rebekah Degree was conferred upon six candidates by Eureka Lodge and Mrs. Sadie E. Carter, president of the Rebekah Assembly, made a very able address.

The event throughout was a most sumptuous one and Seymour Degree Staff may justly feel proud in being honored in participating in the ceremonies and receiving the meritorious compliments as well as the numerous courtesies from Washington brethren.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
